TrueCommerce Takes “Painless EDI” to a Whole New Level with Introduction of Transaction Manager

Newest version of popular EDI solution provider’s translation software provides even greater ease of use and enhanced functionality

PITTSBURGH... TrueCommerce, known for its mantra “we make EDI painless,” today introduced Transaction Manager™, the latest and most feature-rich version of the company’s Electronic Data Interchange (EDI) translation software. Along with a new, more intuitive user interface, numerous performance-improving enhancements were also incorporated.

Transaction Manager enables multiple users to simultaneously access and process EDI transactions, and includes advance scheduling and administrative utilities that make it easy to automate many common tasks while controlling employee access to critical EDI-related information and activities. Advanced search, backup and archiving capabilities, along with an enterprise-level SQL Server database make Transaction Manager a scalable solution that can reliably support the growing EDI needs of any small to mid-size company.

TrueCommerce specializes in providing an easy-to-use and affordable EDI solution. Transaction Manager is EDI translation software that is offered as part of TrueCommerce’s end-to-end EDI solution, which also includes data mapping and barcode printing software, network services and free support.

(more)

“We listened closely to our customers and prospects when we began designing Transaction Manager,” stated George McKee, III, president and CEO, TrueCommerce, “and combined their feedback with best-of-breed industry standards to create an extremely robust solution that’s simple to use and yet still remains affordable.” McKee added, “We had to... making EDI painless is more than just a tagline, it’s our mission.”

The TrueCommerce EDI solution requires only basic PC skills and a standard Internet connection to transact EDI documents in a manner similar to sending and receiving email. Learn how easy and affordable EDI can be by visiting www.truecommerce.com.

About TrueCommerce

TrueCommerce is a Pittsburgh, PA-based EDI solutions provider founded in 1995. From the beginning, the company vision has been to provide small to mid-tier companies with a comprehensive, end-to-end solution that is easy to implement and fully integrates with their accounting or business software. By leveraging the ubiquity of the Internet, TrueCommerce is able to offer a patent-pending solution that is more affordable and easier to use than traditional VAN-based EDI systems. TrueCommerce customers exchange over 8 million EDI transactions annually within a variety of industries, including banking, retail, healthcare and government.
