EDI in the Cloud for Acumatica

BENEFITS

➤ An ideal solution for manufacturers, distributors and other businesses that need to quickly and accurately fulfill and ship orders based on trading partners' specific requirements

➤ End-to-end, cloud-based EDI solution especially for Acumatica, developed and supported by one trusted source

➤ Robust Acumatica integration automates order, order acknowledgments and invoice processing and eliminates manual tasks—making EDI a strategic investment that improves competitiveness and pays for itself again and again through time, effort and cost savings

➤ Critical process controls like unit price verification andduplicate order checking provide crucial validations that prevent errors and eliminate chargebacks from customers

GO BEYOND "COMPLIANCE" BY INTEGRATING EDI AND ERP

For manufacturers, distributors and other supply chain partners using Acumatica cloud ERP, TrueCommerce offers a complete, cloud-based solution that makes it easy and affordable to comply with customers' EDI requirements. But its business value goes far beyond that. TrueCommerce integrates seamlessly with Acumatica, eliminating time-consuming manual tasks to accelerate and automate sales order processing.

With an intuitive interface, low total cost of ownership and on-demand scalability to handle growth and seasonal order spikes, TrueCommerce can help you maximize efficiency and customer satisfaction—liberating your business to focus on new opportunities!

Now you can automate many time-consuming everyday tasks associated with your EDI sales channel, such as creating sales orders in Acumatica from incoming purchase orders, and sending invoices and purchase order acknowledgements to your customers. This eliminates the need to rekey information and helps reduce errors.

Built-in process controls further reduce potential errors by ensuring that unit pricing, purchase order numbers and items are validated before processing transactions to Acumatica. TrueCommerce will even alert you to invalid fields before sending transactions, which eliminates potential chargebacks from customers and prevents errors that could slow the order-to-cash cycle.

Like your cloud-based Acumatica ERP, TrueCommerce gives you all the advantages of a hosted deployment, including anytime/anywhere access, simplified maintenance and IT cost savings. We also offer best-in-class, hands-on service and support that includes automatic updates to your trading partner maps at no additional charge. Plus, there are no annual contracts and no maintenance fees to worry about.

True Commerce™

TRUECOMMERCE FOR ACUMATICA FEATURES AND BENEFITS

Robust Integration for Greater Efficiency and Customer Satisfaction:

➤ The integration automates sales order and invoice transactions, including inbound purchase orders, outbound invoices and outbound purchase order acknowledgements.

➤ For drop-ship orders, marketplace and ecommerce orders, automatically create new customers within Acumatica when you export the EDI purchase order.

➤ Support for user-defined fields lets you extend the integration to automate the exchange of EDI or eCommerce data specific to your business or your customers.

➤ Speed up order processing and fulfillment to ship faster while improving accuracy.

➤ Eliminate costly chargebacks and improve your vendor scorecard.

➤ Handle increased order volume without adding staff.

Built-in Process Controls Ensure Data Integrity, Reduce Errors and Minimize Chargebacks:

➤ The TrueCommerce solution validates fields prior to sending transactions and alerts you to any fields with missing data, helping to optimize turnaround time on orders and reduce chargebacks from customers.

➤ You can automatically validate unit pricing, purchase order numbers and items before processing transactions to Acumatica.

➤ No more rejection of inaccurate invoices to slow down payment.

High-Value, Web-Based Add-Ons Streamline Order Processing Even More:

➤ You can schedule and automate data exchanges between Acumatica and your TrueCommerce solution with the TrueCommerce Scheduler™ add-on.

➤ TrueCommerce Labeling™ add-on makes it easy to create and print UCC-128 labels to meet customer needs and further streamline your shipping processes.

➤ The TrueCommerce Packing List add-on simplifies the management of all trading partner requirements for packing list templates, including content, data and graphics—and automatically updates them when your partners make changes, at no additional charge.

ABOUT TRUECOMMERCE
