

SAGE 300 EDI IN THE CLOUD FOR SALES ORDER PROCESSING INTEGRATION EXCLUSIVELY ENDORSED BY SAGE

BENEFITS

- Integrated documents include sales orders, order entry and accounts receivable invoices, advance ship notices (ASNs) credit invoices and purchase order acknowledgments
- Supports more than 12,000 trading partner maps with updates at no charge
- Unlimited US-based support, no annual maintenance fees, free software upgrades and no annual contracts

TRUECOMMERCE TRANSACTION MANAGER FOR SAGE 300 MAKES IT EASY AND AFFORDABLE TO COMPLY WITH YOUR CUSTOMERS' EDI REQUIREMENTS.

This robust, web-based integration includes everything you need to streamline and automate sales order processing. The intuitive interface, low total cost of ownership and flexible configuration options help you maximize efficiency and customer satisfaction—liberating your business to focus on new opportunities!

TrueCommerce Transaction Manager for Sage 300 automates many everyday tasks, like creating sales orders in Sage 300 or sending invoices to your customers. Built-in process controls ensure that unit pricing, duplicate purchase order numbers and items are validated before processing transactions to Sage 300. If invalid fields exist upon sending, you will be alerted before your document is received by the trading partner, helping to eliminate chargebacks from your customers and reduce turnaround time on orders.

The solution fully supports advance shipping notices (ASNs), including flexible auto-pack options specific to the customer or the item. TrueCommerce automatically updates trading partner mappings at no charge, so you're always up-to-date with trading partner requirements.

The TrueCommerce Scheduler™ further enhances this robust solution. This software add-on automatically performs everyday tasks on your behalf at specific times, resulting in reduced effort and improved efficiency.

TrueCommerce is the only EDI provider to earn the Sage endorsement. A solution that is "endorsed by Sage" has passed a rigorous evaluation including strategic, technological and integration criteria. Endorsed solutions are certified to work with Sage's latest releases, and is from an organization that meets Sage's requirement of delivering an "exceptional customer experience."

TRUECOMMERCE TRANSACTION MANAGER FEATURES AND BENEFITS FOR SAGE 300

Fulfill and Ship Orders Quickly and Accurately while Meeting Each Trading Partner's Specific Requirements:

- EDI in the cloud is quick and easy to deploy and simple to manage, for rapid time-to-value.
- Integration leverages the native Sage API for optimal performance and scalability.
- Minimal keystrokes are required to process data between Sage 300 and the TrueCommerce EDI solution.
- Free mapping updates from TrueCommerce means you'll always be up-to-date with the latest trading partner requirements.
- EDI translator, mapping, network services and support required to successfully implement EDI are included in this proven, single-vendor solution.
- TrueCommerce provides outstanding customer service to further ensure your success.

Advanced EDI Integration with the Sage 300 Sales Order Module Streamlines Transactions and Reduces Effort:

- Integration includes sales order, shipment and invoice transactions, along with advance ship notices (ASNs) and purchase order acknowledgements.
- Purchase order acknowledgements can be created automatically from sales orders in Sage 300 ERP
- Advance ship notice (ASN) integration includes the ability to auto-pack shipments by quantity for key customers based on specific packaging rules.
- Built-in shipment module makes it easy to package shipments and create ASNs. Leverage the auto-pack function to automatically package the shipments based on customer or item-packaging rules.
- TrueCommerce EDI Labeling, an optional add-on, easily creates and prints GS1-128 labels (formerly UCC-128) to meet customer needs and streamline your shipping processes.
- Transaction Manager's multi-company support lets businesses transact EDI through multiple companies in Sage 300, while making it easy to set up and define trading partners to interact with specific companies outlined in Sage 300.

Built-in Process Controls Ensure Data Integrity, Reduce Errors and Minimize Chargebacks:

- Fields are validated prior to sending transactions, and alerts are provided to highlight those fields with missing data, helping to optimize turnaround time on orders.
- Unit pricing, duplicate purchase order numbers and items are automatically validated before processing transactions to Sage 300.
- Data exchanges between Sage 300 and your TrueCommerce EDI Solution can be scheduled and automated with TrueCommerce Scheduler to further automate integrated EDI transactions.

"With over 10,000 deployments across platforms, our expertise in managing EDI implementation processes is unmatched."
