TrueCommerce™

Web EDI

Start trading electronically quickly, easily and cost effectively and win new business with web EDI. Regardless of your technical capabilities, comply with your customers' EDI requirements with the TrueCommerce entry-level web EDI solution.

Comply with all your customers' EDI requirements

For many businesses, complying with their customers' EDI requirements can be a painful process. When your business's contracts are on the line, it is essential that you can quickly and easily meet their electronic trading requirements.

TrueCommerce's web EDI solution provides businesses who only need to manage low volumes of orders and invoices with an affordable EDI connection to your

customers, without the need for an interface to your ERP or accounts payable application. View, print, acknowledge and ship orders, create ASN's with optional pallet labels and create invoices based on orders or shipments all through your web browser.

Message Tracking

Gain complete visibility across your supply chain with message tracking and correction facilities.

Pro-active service

24×7 help desk that monitor the delivery and processing of messages and manage issues.

Cloud-based solution

A hosted managed service gets you up and running quickly and easily with no hardware or software requirements

Key Benefits of Web EDI:

01

Increase the speed and efficiency of order processing

Remove the need for time consuming, error-prone and often paper based processes which involve receiving orders by email, phone or fax.

02

Improve visibility across your organisation

View and keep track of your orders, invoices and other electronic messages through a centralised solution for all your EDI activity.

03

Focus on your core business and leave EDI to the experts

Easily translate and transact any EDI message without the need for in-house expertise. Our managed service allows you to concentrate on growing your business without worrying about EDI standards and formats.

How our EDI Platform Works

1

Business documents

(e.g., purchase orders, inventory, freight details) are automatically sent from your internal system.

2

EDI solutions convert outgoing messages

to meet your trading partner's format and compliance requirements.

3

EDI documents are transmitted securely

through the TrueCommerce Global Commerce Network.

4

Your partner's systems receive and process

incoming documents and may generate new responses automatically.
