

# Integrated EDI

Simplify operations with integrated EDI that delivers the speed, visibility, and scalability your business needs to grow.

## The Challenge: Disconnected Systems and Manual Processes Slow Supply Chain Efficiency

Tired of tedious manual processes that weigh down your team and hinder the growth of your business? Or multiple disparate systems that are unable to provide visibility into supply chain or EDI messages?

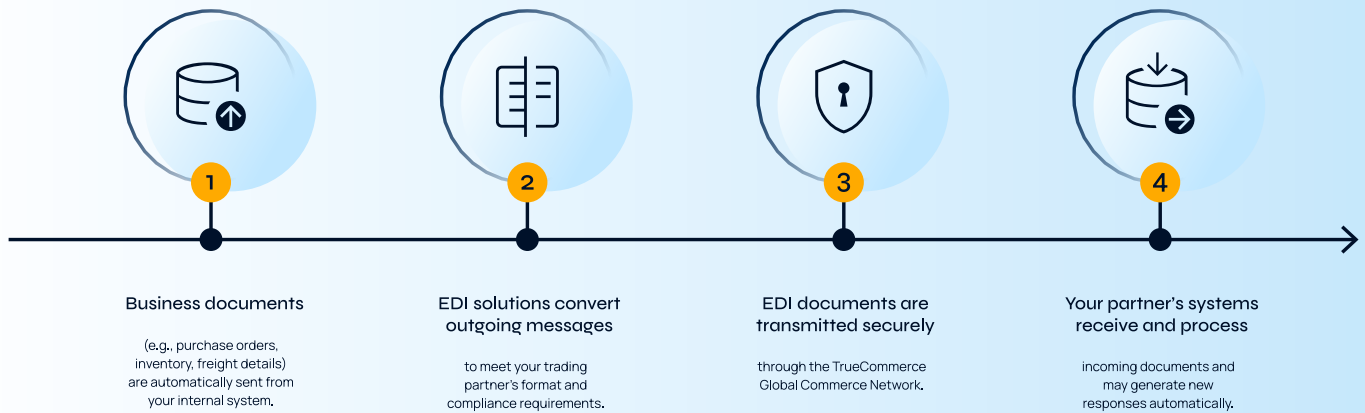

## Our Solution: Harness the Full Benefits of EDI and Leverage the Power of Automation

To support your business growth, our integrated EDI solutions offer direct connectivity to a global commerce network, providing access to thousands of trading partners. Using TrueCommerce for EDI integration and automation, you'll be able to harness the full benefits of EDI, including:

- **Better data analytics and reporting**
- **Increased customer satisfaction** through more efficient order fulfillment
- **Lower administrative costs**
- **Greater speed, visibility, scalability, and overall efficiency**

When it comes to EDI, **TrueCommerce delivers unsurpassed value.** Our integrated EDI solutions are backed by best-in-class technology, top-rated security, and a proven track record of more than two decades.

## Integrated EDI at a Glance

### What You Gain with TrueCommerce Integrated EDI

- Integrations with leading ERP systems
- Access to a global commerce network of **more than 180,000 connections**
- Connectivity to suppliers, buyers, logistics providers, and other supply chain partners
- Features like **scheduled EDI document processing** and **auto-filling** for outgoing transactions
- Reduced chargebacks and an accelerated order-to-cash cycle
- Shorter and fewer **days sales outstanding (DSO)**

With integrated EDI, getting connected to your global trading partners is simple. We connect you to the TrueCommerce global commerce network using your preferred connection, allowing you to send EDI documents directly to and from our cloud-based EDI platform—**Transaction Manager**.

### How It Works

- Our platform converts documents to the formats required by your customers and suppliers
- Documents are delivered using each trading partner's preferred connectivity

- Incoming documents arrive in a format ready to import into your systems, eliminating manual entry
- TrueCommerce validates all documents and monitors delivery, so you spend less time managing EDI

### Your Business Deserves a True EDI Partner

TrueCommerce's fully managed service model helps businesses transform EDI from a potentially expensive but unavoidable overhead into a business opportunity, by providing:

- The experience, skills, and infrastructure to let companies focus on their core competencies
- A Professional Services team equipped to handle all trading partner requirements
- Support for technical issues related to system integration and document exchange
- A customer support team ready to provide the guidance you need to be successful

Even if you aren't familiar or comfortable with EDI, **we help you get up and running—step by step.**

# Key Benefits

## Reduce costs and increase business efficiency

Remove the time-consuming error-prone process of rekeying orders, invoices and other EDI documents into your business system.

## Reinvest your team's time

Eliminate the burden of manual data entry and the day-to-day management of EDI, so you can redeploy your team to more strategic areas of the business.

## Increase the speed and accuracy of your supply chain

Automate the flow of documents from your ERP to your trading partners to shorten your order to cash/purchase to pay cycles with faster, more accurate message exchange.

## Improve customer service levels

Underpin your message automation with stringent business rules to improve message accuracy and ensure you never miss a trading deadline.

## Solution at a Glance

### 01

#### Comprehensive Solution Components
