

Cloud-Based Integrations for Microsoft Dynamics AX

TrueCommerce is the most complete way to connect your business across the supply chain – from EDI to marketplaces to fulfillment and more – so you can do business in every direction.

COMPLETE SOLUTION FROM ONE SOURCE

Our end-to-end EDI solution is easy to use and provides unparalleled scalability, along with in-house support that lets you focus on growing your business. We've taken the complexity out of EDI by providing four key components of successful EDI deployment:

Connectivity with your trading partner(s) is required to transmit EDI documents, whether directly via the Internet or through a "Value Added Network (VAN)". The TrueCommerce Trading Network can transmit EDI transactions to **all your trading partners** across the globe. It is compliant with virtually any connectivity protocol, including AS1/AS2/AS3, FTP and (if required) VAN interconnects.

Web-Based EDI Translation Software converts business documents from raw EDI data (ANSI, ASC, X12, and EDIFACT standard) into a human-readable business form. TrueCommerce Transaction Manager automatically translates your EDI documents, offering complete order visibility. The web-based architecture also enables you to manage EDI from just about anywhere.

Data Mapping and Integration provide the ability to seamlessly send and receive information between Transaction Manager and Microsoft Dynamics AX through the TrueCommerce Business System Plug-In™.

This is achieved by processing EDI transactions through a collection of intelligent software modules.

These modules are programmed to format your inbound EDI transactions to match against your configurations within Microsoft Dynamics AX as well as match your outbound transactions against your trading partner's requirements. As your business grows and you acquire new customers, additional trading partner maps can easily be added and seamlessly integrated with your TrueCommerce solution.

“If you could describe a person as 'user-friendly' that's how I'd describe the folks we worked with at TrueCommerce.”

Linda Baird,
Owner, Fresh Meal Solutions, Inc.

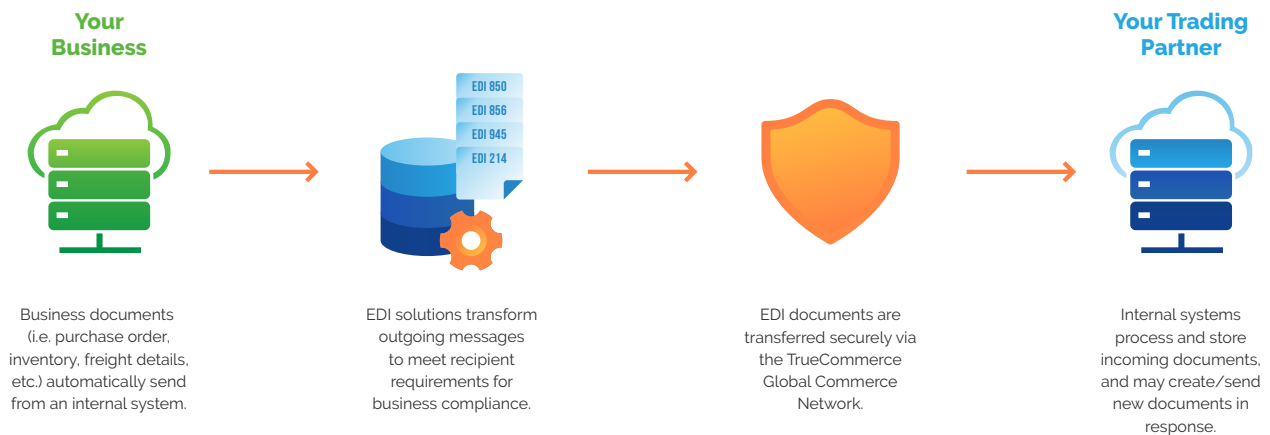

Support is a critical component of a complete, end-to-end EDI solution. Our Professional Services team has the broad range of expertise to handle not only all of your trading partners' requirements, but also any technical issues related to business system integration and the sending and receiving of your EDI documents.

We also keep a constant eye on your transactions to ensure rapid resolution of any EDI issues, and mapping updates that keep you compliant with all your partners' requirements. You can also count on the support team to provide the advice and guidance you'll need to be successful.

Even if you aren't familiar or comfortable with EDI, we'll be there to help you get up and running, step by step

How EDI Works

With EDI, you can automate the many steps involved in order processing, from the initial purchase order, to ASNs and shipping updates, to invoices, and more. **Here's how.**

TrueCommerce is the most complete way to connect your business across the supply chain – from EDI to marketplaces to fulfillment and more – so you can do business in every direction.

Integrate Your Entire Supply Chain with Microsoft Dynamics AX

Choosing an end-to-end EDI solution that offers seamless integration with Microsoft Dynamics AX is a strategic investment that can improve customer relationships, business agility and profitability. But that's just the beginning of what TrueCommerce integrations offer our customers!

CONFIGURABLE BUSINESS RULES ENHANCE PROCESSING SPEED AND ACCURACY

TrueCommerce includes a rich set of configurable business rules and cross-references to define "conditional" rules, or to define when to alert your personnel when discrepancies are identified such as price variances, stock outs, invoice calculation errors and much more. TrueCommerce offers the flexibility to define unique business rules to accommodate for the varying demands placed upon your business when

supporting different distribution models and order profiles.

System-, company- or customer-level rules can be configured by order type, item, document, ship-to location, and more, to provide unmatched scalability.

TrueCommerce's design minimizes the ongoing and arduous task of maintaining compliance with your trading partners. Inventory and unit of measure conversions, business rules, date manipulations and much more can be defaulted at a system or company level or defined at a customer level for the ultimate level of granularity.

SCALABLE INVESTMENT CURBS COSTS AS YOUR BUSINESS CONTINUES TO GROW

The TrueCommerce technical architecture was built for high volume transaction exchanges, storage and throughput by leveraging best-of-breed tools and technologies.

Scalability also implies that your EDI partner will be able to provide support and services as your business demands them. TrueCommerce doesn't charge for support incidents or mapping changes caused by modified trading partner requirements.

INTEGRATED SHIPMENT PACKING AND ASN GENERATION

- ✓ Ensure compliance by driving consistent processes through configured business rules
- ✓ Order and pick list packing capabilities with peripheral device support for weight capture, item scanning, and quantity validation

- ✓ Exceptional error checking and automated data transformations streamline processing and reduce chargebacks
- ✓ TrueCommerce offers flexible options for support including guided tutorials, training webinars, and 24/7 customer service availability
- ✓ On-premises based connectivity and translation or a fully-hosted model
- ✓ Depth and flexibility to accommodate for AX

environment customizations to the AX workflow does not require reprogramming of the EDI system

- ✓ Easy to learn and use – Our configurable solution adapts to your business processes, reducing the learning curve for end users
- ✓ Scalable, multi-company, multi-deployment architecture to manage and support the demands and complexity of enterprise EDI requirements

WITH OVER 18,000 DEPLOYMENTS ACROSS PLATFORMS, OUR EXPERTISE IN MANAGING EDI IMPLEMENTATION PROCESSES IS UNMATCHED.

AUTOMATE EVERYDAY TASKS

Import and export EDI transactions at scheduled times with the TrueCommerce Scheduler add-on. To meet partners' labeling and packing requirements with one solution, the TrueCommerce Labeling add-on automates creation of UCC/GS1-128 compliant, bar-coded labels, with label and packing list template updates included free. To integrate EDI with popular shipping systems like FedEx and UPS, choose the TrueCommerce Shipping Module.

CUSTOM FIELDS INTEGRATION

TrueCommerce Transaction Manager supports integration for custom fields of your choice. While a number of data fields can be integrated, shipment and delivery dates might illustrate essential data that is important when processing your documents. Regardless of which field or data type you would like to integrate as a custom field, Transaction Manager will automatically recognize and populate those fields; eliminating the need to manually re-key that data each time.

EDI IS JUST THE BEGINNING!

To do business in every direction, Microsoft Dynamics AX users need to move more data faster across more channels, maximize automation and eliminate manual effort. As the most complete way to connect your business across the supply chain, TrueCommerce offers an unrivaled choice of integrations and value-added capabilities.

Connect to Marketplaces—Including Amazon

Connect Microsoft Dynamics AX to leading online marketplaces like eBay, Walmart, Google, AliExpress and more than 100 other top marketplaces globally. Automatically exchange order, fulfillment, customer and inventory data between marketplaces and Microsoft Dynamics AX—no more retyping. TrueCommerce can also integrate Microsoft Dynamics AX with [Amazon Seller Central](#) or [Vendor Central](#)

to move order and inventory data back-and-forth automatically between Amazon and Microsoft Dynamics AX.

Plus, create new customers in Microsoft Dynamics AX automatically for orders from your eCommerce and drop ship channels. The system checks for existing customers to prevent duplication and offers greater visibility into your online shoppers!

Connect to Storefronts

Connect Microsoft Dynamics AX to [leading online storefronts](#), including Shopify, WooCommerce, BigCommerce, and Adobe Commerce (Magento). Process online orders in minutes and automatically update pricing and inventory between your online store and Microsoft Dynamics AX.

Integrate with Retailer APIs

Connect directly with your trading partners' API platforms. Our API integration lets you exchange data in real time for increased accuracy, higher performance, faster order processing, and lower costs. Keep inventory up-to-date with inventory feed automation, and enjoy fully-supported map updates for ongoing compliance.

ABOUT TRUECOMMERCE
