

EDI in the Cloud for NetSuite ERP

Integrated EDI from One Trusted Source

TrueCommerce is the most complete way to connect your business across the supply chain – from EDI to marketplaces to fulfillment and more – so you can do business in every direction.

BENEFITS

More Connected. More Supported. More Prepared for What's Next.

- ▶ As a SuiteCloud Developer Network (SDN) partner, the TrueCommerce EDI solution for NetSuite has earned the "Built for NetSuite" verification and is available on SuiteApp.com
- ▶ End-to-end, cloud-based EDI solution for NetSuite, developed and supported by one trusted source
- ▶ Robust NetSuite integration automates order and invoice processing, as well as advance ship notices; Also, critical process controls like unit price verification, duplicate order checking and custom document numbering provide crucial validations
- ▶ An ideal EDI solution for manufacturers, distributors and other businesses that need to quickly and accurately fulfill and ship orders based on trading partners' specific requirements

The TrueCommerce end-to-end, cloud-based EDI solution for NetSuite ERP, makes it easy and affordable to comply with your customers' EDI requirements. This robust, integrated solution includes everything you need to streamline and automate sales order processing. The intuitive interface, low total cost of ownership and seamless integration help you maximize efficiency and customer satisfaction—liberating your business to focus on new opportunities!

Many everyday tasks, such as creating sales orders in NetSuite or sending invoices to your customers can be automated. In addition, TrueCommerce EDI extends the NetSuite item fulfillment record and allows for seamless advance ship notice integration (ASN). This eliminates the need to rekey information and other manual tasks, accelerating order processing and preventing errors. Built-in process controls ensure that unit pricing, duplicate purchase order numbers and items are validated before processing transactions to NetSuite. You will also be alerted when there are invalid fields, which helps to eliminate chargebacks from your customers and reduce turnaround time on orders.

The TrueCommerce Scheduler™ further enhances this robust EDI solution. This add-on automatically performs everyday tasks on your behalf at specific times, resulting in reduced effort and improved efficiency. Plus you get all the advantages of web-based deployment, including on-demand scalability, anytime/anywhere access, simplified maintenance and IT cost savings. TrueCommerce EDI also offers hands-on service and support that includes solution updates and trading partner mapping changes at no additional charge, no annual contracts and no maintenance fees.

TRUECOMMERCE TRANSACTION MANAGER FEATURES AND BENEFITS FOR NETSUITE

Robust Integration for Greater Efficiency and Customer Satisfaction:

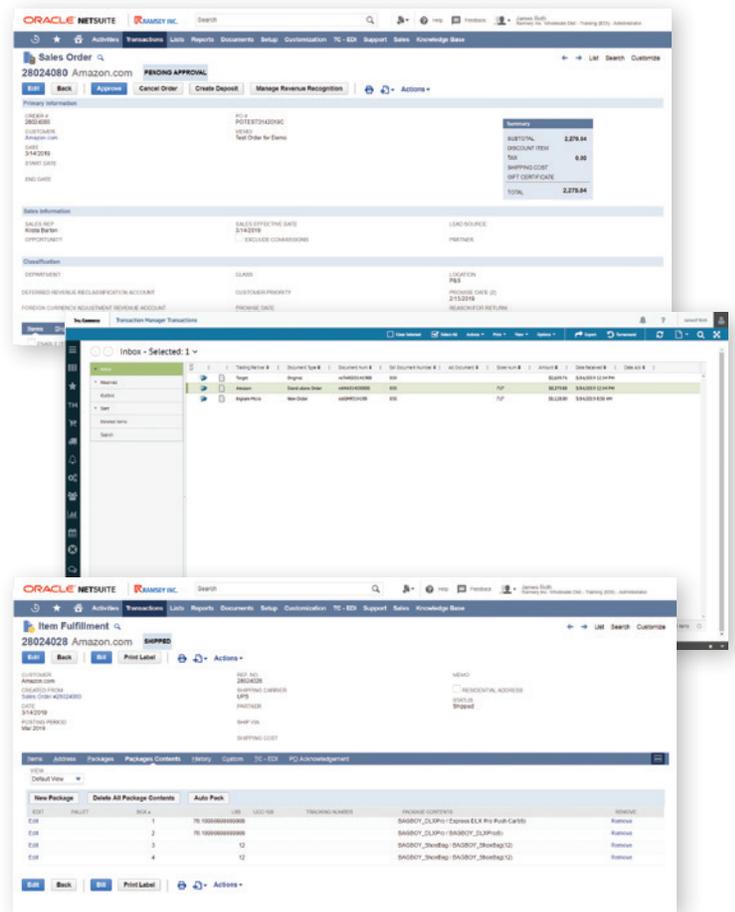

- Integration leverages the “Built for NetSuite” (BFN) verification process to ensure high quality and strong security and privacy
- Integration includes sales order and invoice transactions, including inbound purchase orders (850/875), outbound invoices (810/880), and advance ship notices (856)
- Outbound ASN integration supports no pack, pick and pack, standard, and consolidated ASNs
- Built-in auto pack capabilities give you the ability to package your shipments in NetSuite, streamlining the process of creating and packaging items
- Auto pack shipments based on quantity or weight
- Speeds up order processing and fulfillment while improving accuracy
- Cost-effective and easy-to-use—you interact with both applications from within NetSuite, eliminating “back and forth” between NetSuite and Transaction Manager

BUILT-IN PROCESS CONTROLS ENSURE DATA INTEGRITY, REDUCE ERRORS AND MINIMIZE CHARGEBACKS:

- The solution validates fields prior to sending transactions, and provides alerts to highlight any fields with missing data, helping to optimize turnaround time on orders and reduce chargebacks from customers
- Unit pricing, duplicate purchase order numbers and items can be automatically validated before processing transactions to NetSuite
- No more rejection of inaccurate invoices to slow down payment

HIGH-VALUE, WEB-BASED ADD-ONS STREAMLINE ORDER PROCESSING EVEN MORE:

- You can schedule and automate data exchanges between NetSuite and your TrueCommerce EDI Solution with the TrueCommerce Scheduler add-on
- TrueCommerce EDI Labeling™ makes it easy to create and print UCC-128 labels to meet customer needs and further streamline your shipping processes
- The TrueCommerce Packing List add-on simplifies the management of all trading partner requirements for packing list templates, including content, data and graphics—and automatically updates them when your partners make changes, at no additional charge
