

# Cloud-Based Integrations for QuickBooks Pro, Premier & Enterprise

TrueCommerce is the most complete way to connect your business across the supply chain – from EDI to marketplaces to fulfillment and more – so you can do business in every direction.

## COMPLETE SOLUTION FROM ONE SOURCE

Our end-to-end EDI solution is easy to use and provides unparalleled scalability, along with in-house support that lets you focus on growing your business. We've taken the complexity out of EDI by providing four key components of successful EDI deployment:

**Connectivity** with your trading partner(s) is required to transmit EDI documents, whether directly via the Internet or through a "Value Added Network (VAN)". The TrueCommerce Trading Network can transmit EDI transactions to [all your trading partners](#) across the globe. It is compliant with virtually any connectivity protocol, including AS1/AS2/AS3, FTP and (if required) VAN interconnects.

**Web-Based EDI Translation Software** converts business documents from raw EDI data (ANSI, ASC, X12, and EDIFACT standard) into a human-readable business form. TrueCommerce Transaction Manager automatically translates your EDI documents, offering complete order visibility. The web-based architecture also enables you to manage EDI from just about anywhere.

**Data Mapping and Integration** provide the ability to seamlessly send and receive information between Transaction Manager and QuickBooks through the TrueCommerce Business System Plug-In™.

This is achieved by processing EDI transactions through a collection of intelligent software modules. These modules are programmed to format your inbound EDI transactions to match against your configurations within QuickBooks as well as match your outbound transactions against your trading partner's requirements. As your business grows and you acquire new customers, additional trading partner maps can easily be added and seamlessly integrated with your TrueCommerce solution.

**Support** is a critical component of a complete, end-to-end EDI solution. Our Professional Services team has the broad range of expertise to handle not only all of your trading partners' requirements, but also any technical issues related to business system integration and the sending and receiving of your EDI documents.

*"If you could describe a person as 'user-friendly' that's how I'd describe the folks we worked with at TrueCommerce."*

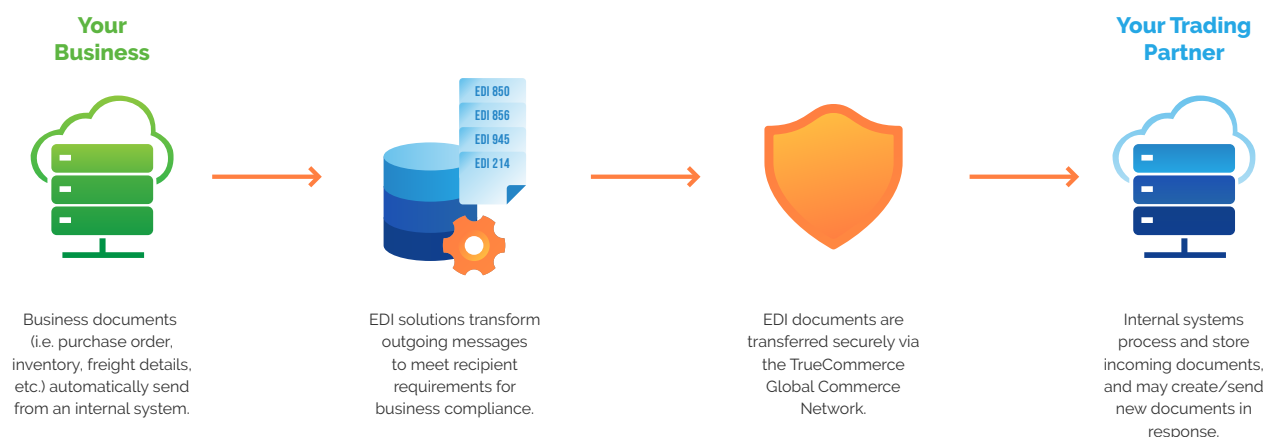

*Linda Baird,  
Owner, Fresh Meal Solutions, Inc.*

We also keep a constant eye on your transactions to ensure rapid resolution of any EDI issues, and mapping updates that keep you compliant with all your partners' requirements. You can also count on the support team to provide the advice and guidance you'll need to be successful.

Even if you aren't familiar or comfortable with EDI, we'll be there to help you get up and running, step by step.

## How EDI Works

With EDI, you can automate the many steps involved in order processing, from the initial purchase order, to ASNs and shipping updates, to invoices, and more. **Here's how.**

## Integrate Your Entire Supply Chain for QuickBooks, Pro, Premier & Enterprise

Choosing an end-to-end EDI solution that offers seamless integration with QuickBooks is a strategic investment that can improve customer relationships, business agility and profitability. But that's just the beginning of what TrueCommerce integrations offer our customers!

Integrating your EDI solution with QuickBooks reduces the need to print or re-enter transactions, which makes order processing faster and more efficient without sacrificing accuracy. TrueCommerce Transaction Manager offers powerful sales order, remote warehouse and purchasing integration that's proven, affordable and easy-to-use – enabling you to meet all of your trading partners' EDI requirements.

### “PREFERRED” BY INTUIT

TrueCommerce has been providing integrated EDI services to QuickBooks customers for over 15 years, and is the only EDI solution selected by Intuit as “Preferred” for use with QuickBooks Enterprise Solutions. TrueCommerce has also earned Intuit's prestigious Gold Developer status for QuickBooks Pro and Premier. QuickBooks users can trust TrueCommerce to meet their needs both today and into the future.

### WEB-BASED INTEGRATED EDI

Access and manage your EDI transactions from anywhere, anytime, with no maintenance, backup, or update responsibilities. Connect with QuickBooks Desktop via WebConnect for a true cloud-to-cloud experience, and leave on-premises server headaches behind.

### STREAMLINE ORDER FULFILLMENT

When you [integrate TrueCommerce](#) Transaction Manager with QuickBooks, you can automatically create sales orders and invoices from inbound purchase orders (850), enabling you to quickly send outbound invoices (810) to your customers using EDI. Credit memos can also be imported from QuickBooks, directly into your EDI solution; avoiding the need to manually rekey data. In addition, support for sending outbound inventory (846) and catalog (832) documents from QuickBooks enables real-time updates on inventory availability and product details.

## CONNECT WITH WAREHOUSES AND 3PLS

Our remote warehouse integration can automate communication with thirdparty logistics (3PL) providers to fulfill orders faster and more accurately. Transaction Manager will convert sales orders into warehouse shipping orders (940) while integrating the warehouse shipping advice (945) with QuickBooks to automatically create invoices against sales orders.

## AVAILABLE PURCHASING INTEGRATION

TrueCommerce makes it easier to connect with your suppliers and manage your business through the support of integrated outbound purchase orders and inbound invoices. Additionally, the inbound invoice can automatically generate bills within QuickBooks.

## BUILT-IN PROCESS CONTROLS

Built-in process controls ensure that required data requested by your customer has been entered correctly, and will notify you of invalid fields prior to sending your outbound transactions.

TrueCommerce Transaction Manager automatically verifies that items on incoming orders, including the unit price, are matched to your data in QuickBooks. Also, when you create a sales order in QuickBooks,

TrueCommerce Transaction Manager checks that both the customer ID and item number fields are valid. These automated safeguards help to eliminate chargebacks from customers and reduce the turn-around time on orders by ensuring that all EDI documents sent to your customers are complete.

## AUTOMATE EVERYDAY TASKS

Import and export EDI transactions at scheduled times with the TrueCommerce Scheduler add-on. To meet partners' labeling and packing requirements with one solution, the TrueCommerce Labeling add-on automates creation of UCC/GS1-128 compliant, barcoded labels, with label and packing list template updates included free. To integrate EDI with popular shipping systems like FedEx and UPS, choose the TrueCommerce Shipping Module.

## CUSTOM FIELDS INTEGRATION

TrueCommerce Transaction Manager supports integration for custom fields of your choice. While a number of data fields can be integrated, shipment and delivery dates might illustrate essential data that is important when processing your documents. Regardless of which field or data type you would like to integrate as a custom field, Transaction Manager will automatically recognize and populate those fields; eliminating the need to manually re-key that data each time.

## EDI IS JUST THE BEGINNING!

To do business in every direction, QuickBooks users need to move more data faster across more channels, maximize automation and eliminate manual effort. As the most complete way to connect your business across the supply chain, TrueCommerce offers an unrivaled choice of integrations and value-added capabilities.

## Connect to Marketplaces—including Amazon

Connect QuickBooks to leading online marketplaces like eBay, Walmart, Google, AliExpress and more than 100 other top marketplaces globally. Automatically exchange order, fulfillment, customer and inventory data between marketplaces and QuickBooks—no more retyping. TrueCommerce can also integrate QuickBooks with [Amazon Seller Central or Vendor Central](#) to move order and inventory data back-and-forth automatically between Amazon and QuickBooks.

Plus, create new customers in QuickBooks automatically for orders from your eCommerce and drop ship channels. The system checks for existing customers to prevent duplication and offers greater visibility into your online shoppers!

## Connect to Storefronts

Connect QuickBooks to [leading online storefronts](#), including Shopify, WooCommerce, BigCommerce, and Adobe Commerce (Magento). Process online orders in minutes and automatically update pricing and inventory between your online store and QuickBooks.

## Integrate with Retailer APIs

Connect directly with your trading partners' API platforms. Our API integration lets you exchange data in real time for increased accuracy, higher performance, faster order processing, and lower costs. Keep inventory up-to-date with inventory feed automation, and enjoy fully-supported map updates for ongoing compliance.

## ABOUT TRUECOMMERCE

TrueCommerce is the most complete way to integrate your business across the supply chain, integrating everything from EDI to inventory management, to fulfillment, to digital storefronts and marketplaces, to your business system and to whatever comes next. That's why thousands of companies across various industries rely on us.
