

Purchasing Integration for Sage 100

TrueCommerce Transaction Manager for Sage 100 makes it easy and affordable to transact EDI with your suppliers, while making your business more efficient at the same time.

Comprehensive integration with the Sage 100 purchase order module (including purchase order, receipt of goods and receipt of invoice transactions) makes exchanging information between Sage 100 and your TrueCommerce EDI solution seamless. Purchase orders, shipments and invoices become fully integrated, eliminating manual effort and reducing errors.

TrueCommerce Transaction Manager for Sage 100 automates many everyday tasks, like importing inbound advance ship notices (ASNs) to receive against the original purchase order, and creating a receipt of invoice upon importing an invoice. In addition, built-in process controls ensure that key fields on your outbound EDI documents are complete before sending those transactions to suppliers – helping to minimize or eliminate errors.

The TrueCommerce Scheduler add-on further enhances this easy-to-use purchasing solution. TrueCommerce Scheduler automatically performs import and export functions for the integrated transactions that you specify. Scheduling automated transactions at a time that best fits your business needs saves you time and reduces manual effort, so you can focus on other important business processes.

TRUECOMMERCE TRANSACTION MANAGER FEATURES AND BENEFITS FOR SAGE 100

Seamless Integration Your Business Can Rely On:

- The TrueCommerce EDI solution integrates purchase order, receipt of goods and receipt of invoice transactions with Sage 100
- The integration leverages Sage 100 Business Objects Interface – the approach Sage recommends for the tightest and most robust integration
- Native support for Sage 100 business logic ensures smooth integration with your business documents and eliminates the need to print or re-enter data
- You can import or export data between Sage 100 and the TrueCommerce EDI solution in one click – or use TrueCommerce Scheduler to set up these functions automatically, without user intervention

Advanced Purchasing Integration Streamlines Collaboration with Suppliers:

- The EDI system automatically imports inbound advance ship notices (ASNs) into Sage 100 to receive against the original purchase order, saving time and reducing manual effort
- You can create multiple shipments against a single purchase order - helping you to track items shipped versus items you are still expecting
- Inbound invoices automatically create a receipt of invoice document, saving time and reducing errors
- You can assign your EDI shipments and invoices into batches when processing your receipt of goods and invoice documents

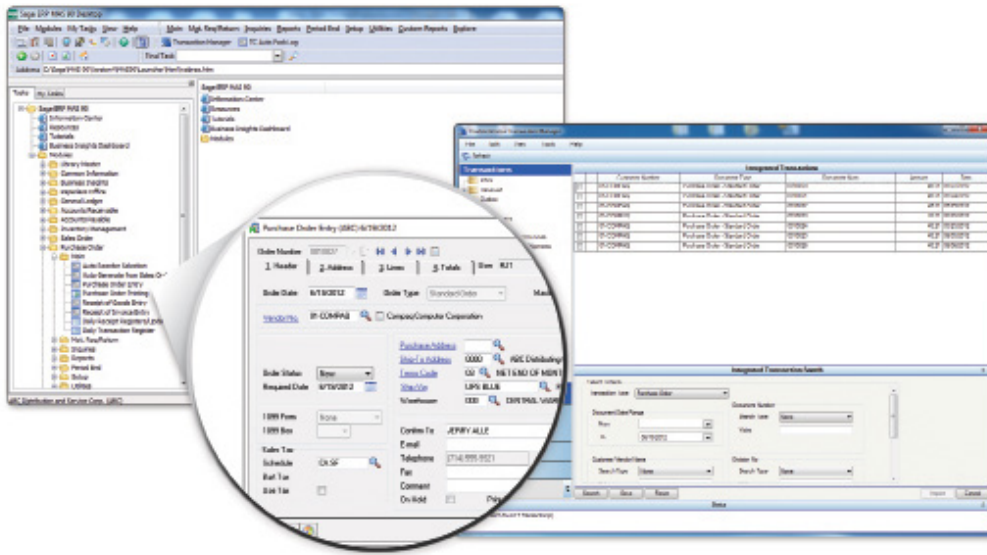

BENEFITS

- An unequalled range of commerce solutions for Sage 100, developed and supported by one trusted source— including integrated EDI, digital marketplace and storefront integrations, fulfillment automation and much more
- Advanced EDI integration automates a wide range of sales, purchasing and remote warehouse documents, including advance ship notices (ASNs)
- Connect directly with over 180,000 trading partners on the TrueCommerce global trading network, with time-saving EDI mapping updates at no extra charge
- Unlimited, in-region support and free software updates

Built-in Process Controls Reduce Errors and Accelerate Order Processing:

- The TrueCommerce solution automatically ensures that all fields are valid before sending a transaction, and alerts you to invalid fields. Items shipped and invoiced are automatically validated against the original purchase order
- Vendor pricing is validated when you create an invoice, automatically comparing the EDI unit cost and the Sage unit cost. If they compare unequal you can assign either the Sage or EDI price, or prevent the invoice from being created
- Purchase orders imported from Transaction Manager into Sage 100 are automatically validated against supplier requirements or purchase order maps, to ensure accuracy

TrueCommerce Transaction Manager for Sage 100 makes it easy and affordable to transact EDI with your suppliers.
