Integrated EDI

Harness the Full Benefits of EDI and Leverage the Power of Automation
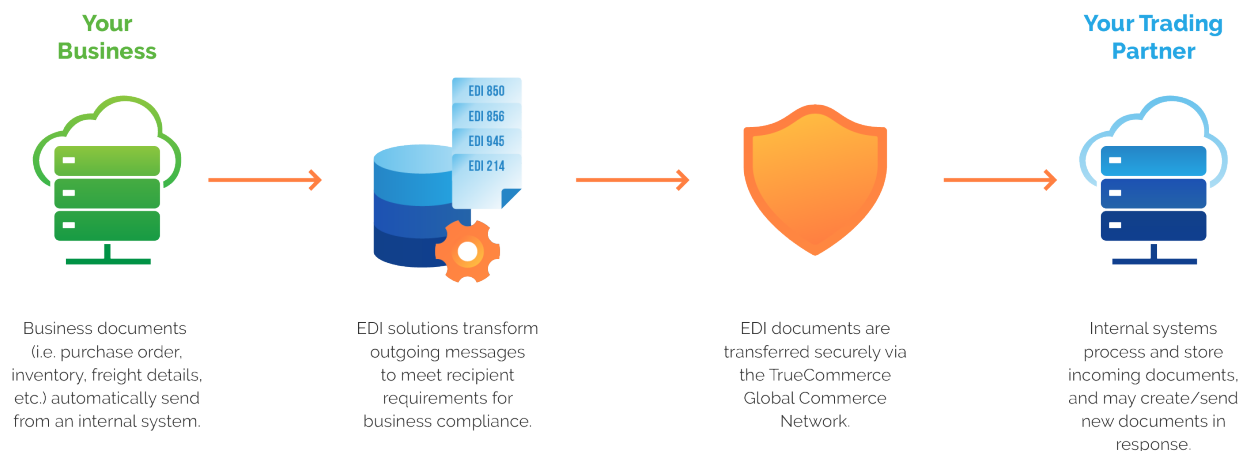

To support your business growth, our integrated EDI solutions offer direct connectivity to a global commerce network – providing access to thousands of trading partners. Using TrueCommerce for EDI integration and automation, you'll be able to harness the full benefits of EDI, including better data analytics and reporting, increased customer satisfaction through more efficient order fulfillment processes, and lower administrative costs.

When it comes to EDI, TrueCommerce delivers unsurpassed value. TrueCommerce's integrated EDI solutions are backed by best-in-class technology , top-rated security, and a proven track record of more than two decades. Leveraging integrations with leading ERP systems and a global commerce network of more than 180,000 connections, you can easily connect to all your suppliers, buyers, logistics partners, and other supply chain partners. You can also take advantage of key features like scheduling EDI document processing and document auto-filling for outgoing transactions. That means reduced chargebacks, an accelerated order-to-cash cycle, and shorter, and fewer days sales outstanding (DSO).

Free up internal resources and focus on your core business with TrueCommerce's game-changing fully managed EDI service

How Integrated EDI from TrueCommerce Works

Your Business

Your Trading Partner

EDI 850
EDI 856
EDI 945
EDI 214

| Business documents (i.e. purchase order, inventory, freight details, etc.) automatically send from an internal system. | EDI solutions transform outgoing messages to meet recipient requirements for business compliance. | EDI documents are transferred securely via the TrueCommerce Global Commerce Network. | Internal systems process and store incoming documents, and may create/send new documents in response. |

With integrated EDI, getting connected to your global trading partners is simple. We connect you to TrueCommerce's global commerce network using your preferred connection , which allows you to send EDI documents directly to and from TrueCommerce's cloud-based EDI platform—Transaction Manager. Our platform then converts documents to the formats required by your customers and suppliers and delivers them using your trading partners' preferred connectivity.

Documents from your partners are delivered to you in a format that allows them to be imported into your business systems, avoiding manual entry. Additionally, we'll validate all documents and monitor their delivery, so you can spend less time managing EDI and more time benefiting from it.

Key Benefits of a TrueCommerce Web-based EDI Integration

When you choose integrated EDI from TrueCommerce, you get more than rapid trading partner connectivity and fast, accurate document exchanges. Our integrations work with leading cloud ERPs, including Microsoft Dynamics, NetSuite, SAP, Acumatica, Sage and QuickBooks. The cloud-based design offers unparalleled scalability, and the ability to manage your EDI transactions from anywhere. And, thanks to best-in-class security, you can expand your business while safeguarding both your own and your customers' valuable data.

Your Business Deserves a True EDI Partner

TrueCommerce's fully managed service model helps businesses transform EDI from a potentially expensive but unavoidable overhead into a business opportunity, by providing the experience, skills and infrastructure to allow companies to concentrate on their core competences.

Our Professional Services team has the broad range of expertise to handle not only all your trading partners' requirements, but also any technical issues related to business system integration and the sending and receiving of your EDI documents. You can also count on the support team to provide the advice and guidance you'll need to be successful. Even if you aren't familiar or comfortable with EDI, we'll be there to help you get up and running, step by step.

The Cost of Manually Entering Data

Over

$600,000

per year manually entering invoices from suppliers

Over

$648,000

per year in manually entering data from bank portals into an ERP system

Source: What Every CFO Needs to Know About Supply Chains

Reduce costs and increase business efficiency

Remove the time-consuming error-prone process of rekeying orders, invoices and other EDI documents into your business system.

Reinvest your team's time

Eliminate the burden of manual data entry and the day-to-day management of EDI, so you can redeploy your team to more strategic areas of the business.
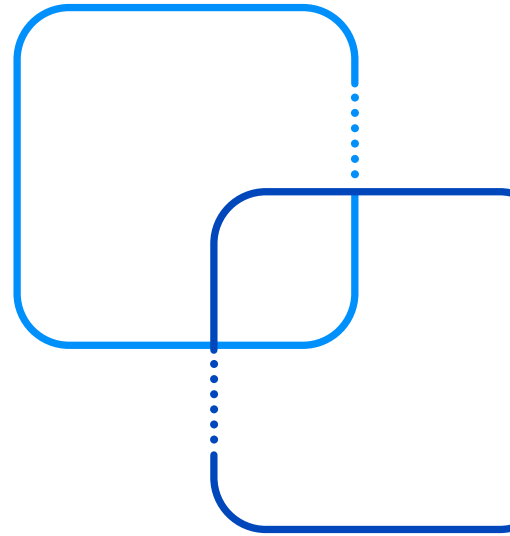

Increase the speed and accuracy of your supply chain

Automate the flow of documents from your ERP to your trading partners to shorten your order to cash/purchase to pay cycles with faster, more accurate message exchange.

Improve customer service levels

Underpin your message automation with stringent business rules to improve message accuracy and ensure you never miss a trading deadline.

Full-Service EDI Implementation

We manage the entire implementation process – from communicating with your customers and suppliers on how they want to transact with your business, to testing connections and providing training for you and your trading partners.

24/7 Customer Service Access

Our team of in-house experts have a deep knowledge of your EDI solution, ERP system, and unique business needs. We help lower the burden on your IT team by providing the technical guidance and rapid response you need to keep your business moving.

Proactive EDI Monitoring

TrueCommerce keeps an eye on your EDI transactions to quickly catch and resolve messaging issues. We also track your trading partners and update your EDI maps as they issue new requirements, so you're always compliant.

Easier ERP Upgrades

A plug-and-play architecture ensures a seamless transition when you're ready to upgrade your ERP system, even if you move to a new ERP provider. By minimizing the disruption to your EDI environment, you can get all the benefits of your chosen ERP, with less hassle.
